

REMARKS

This is a divisional application claiming priority from USSN 08/808,324, filed February 28, 1997. Examination and allowance of claims 17, 18, 20 and 27 are requested.

The Sequence Listing and references in the specification thereto have been changed in order to correct a formatting error from an earlier application and to bring the Sequence Listing into compliance with 37 CFR §1.822(b)(2). No new subject matter has been added. Thus, the amendment should be entered. In accordance with 37CFR 1.821(e), Applicants request transfer of the computer readable Form (CRF) of the Sequence Listing in USSN 08/808,324 to the present application.

Respectfully submitted,
